# What is TruVinci?

TruVinci is a solution for misaligned teeth with a focus on longevity of treatment and powered by Illusion Aligners technology.

Powered by  
**ILLUSION**  
Aligners

## Why choose TruVinci over other brands?

Every TruVinci case is designed by Illusion's in-house orthodontists combining their knowledge with market-leading aligner tray materials to ensure consistency of results. Once treatment is complete, patients are given the opportunity to secure their smile with Lifetime Smile Security\*. This safeguards their results and gives them the confidence they need to proceed with treatment.

## Why is TruVinci powered by Illusion?

The Illusion team is an international powerhouse with a proven history of consistent results and happy patients. They are one of the few non-resident teams to achieve FDA approval in the United States and have accrued an impressive track record since inception:

- 1 Designed by Orthodontists with full case planning
- 2 3,700+ Dentists served
- 3 50,000+ Happy smiles created

# Case selection

TruVinci provides consistent outcomes for a range of case types such as those listed below. For more advanced cases please get in touch directly and we'd be happy to talk through the options.

Spacing

Excessive Overjet
